Please note: sending anything other than a predetermination request will delay the review of your information.

IMPORTANT PREDETERMINATION REMINDERS

Please note: surgery should not be scheduled prior to determination of coverage.

- 1. Always verify eligibility and benefits first.
- 2. You must also complete any other pre-service requirements, such as preauthorization, if applicable and required.
- 3. All applicable fields are required. If all information is not provided, this may cause a delay in the predetermination process. (Inquiries received without the member/patient's group number, ID number, and date of birth cannot be completed and may be returned to you to supply this information.)
- 4. Fax information for each patient separately, using the fax number indicated on the form.
- 5. Always place the Predetermination Request Form on top of other supporting documentation. Please include any additional comments if needed with supporting documentation.
- 7. Do not send in duplicate requests, as this may delay the process.
- 8. If photos are required for review, the photos should be mailed along with the Predetermination Request Form and not faxed. Faxed photos are not legible and cannot be used to make a determination.

Please note that the fact that a guideline is available for any given treatment or that a service or treatment has been preauthorized or predetermined for benefits, is not a guarantee of payment. Benefits will be determined once a claim is received and will be based upon, among other things, the member's eligibility and plan provisions in effect at the time the service is rendered.

Please note: attach all clinical documentation to support medical necessity.
