Aetna Dental Care RewardSM Plan

Dental Benefits Summary

The Aetna Dental Care Reward plan encourages oral and overall health by rewarding members who seek dental care. Members who receive a dental service (as outlined in their plan), in one year, will receive increased benefits in the following year. If members continue to receive dental care annually as outlined by their plan, benefits continue to increase year after year until reaching coinsurance, frequency and other maximums as described in the plan.

The benefit level is independently tracked for each member and dependent. After the first year, each family member's benefit level may vary.

If the member or dependent does not seek care in a particular year, the benefit level will either stay at current level or decrease depending on the plan selected.

Other Important Information

This Aetna Dental® Preferred Provider Organization (PPO) benefits summary is provided by Aetna Life Insurance Company for some of the more frequently performed dental procedures.

Under the Dental Preferred Provider Organization (PPO) plan, you may choose at the time of service either a PPO participating dentist or any nonparticipating dentist. With the PPO plan, savings are possible because the participating dentists have agreed to provide care for covered services at negotiated rates. Non-participating benefits are subject to recognized charge limits.

Out-of-Network plan payments are based on the 80th percentile of prevailing charges for the geographic area.

Emergency Dental Care

If you need emergency dental care for the palliative treatment (pain relieving, stabilizing) of a dental emergency, you are covered 24 hours a day, 7 days a week.

When emergency services are provided by a participating PPO dentist, your co-payment/coinsurance amount will be based on a negotiated fee schedule. When emergency services are provided by a non-participating dentist, you will be responsible for the difference between the plan payment and the dentist's usual charge. Refer to your plan documents for details. Subject to state requirements. Out-of-area emergency dental care may be reviewed by our dental consultants to verify appropriateness of treatment.

The replacement must take place within 12 months from the date of initial installation of the immediate temporary denture.

- (b) the service selected must be deemed by the dental profession to be an appropriate method of treatment; and
- (c) the service selected must meet broadly accepted national standards of dental practice.

If treatment is being given by a participating dental provider and the covered person asks for a more costly covered service than that for which coverage is approved, the specific copayment for such service will consist of:

- (b) the difference in cost between the approved less costly service and the more costly covered service.
